

1872 Society

The 1872 Society was established to recognize donors who have made arrangements for future or planned gifts in support of St. Luke's University Health Network. Membership is also extended to contributors who create endowments with gifts of \$10,000 or more. Members of the 1872 Society share the common belief that their investment in St. Luke's will help to secure the future of our hospital for generations to come.
