

## Tomorrow's Leaders

At St. Luke's, we're empowering young people to become bold, innovative change-makers. Our goal is to provide opportunities for bright, talented young people from diverse backgrounds to learn new skills that may lead them to a career in medicine or another rewarding field. It's exciting to watch as they experience the joy of serving others.

Your charitable support helps underwrite these efforts and much more. Thank you for helping to open the doors of opportunity.

Vice President for  
Development and External Affairs  
St. Luke's University Health Network

## One Very Chill Day

Few areas in Pennsylvania have been hit as hard by the opioid crisis as Schuylkill County—but St. Luke's and its partners are helping young people prevent substance misuse through programs like the Panther Valley STEP Up program. Each week, junior and senior high students gather with their peers to build resiliency skills through gestures of good will, acts of kindness, and some good old-fashioned chillin'.

## Vote by Monday to Help Local Children

Wind Creek Bethlehem is generously donating \$25,000 to one local charity—and St. Luke's is in the running! If selected, the funds will support the care our Network's mobile health vans provide to at-risk children in our community. Cast your vote by Monday, September 30!

## Connecting with the Natural World

The foundation for health is a good diet that includes plenty of fresh fruits and vegetables. St. Luke's is proud to partner with the Kellyn Foundation to provide school gardens at elementary schools in five local districts. By encouraging gardening and healthy eating, St. Luke's and Kellyn are working to prevent obesity and diabetes.

## A Summer to Give Back

This summer, 490 student volunteers dedicated a collective 21,080 hours to helping St. Luke's patients, staff, and visitors, while learning what life is like in a fast-paced healthcare environment. In addition to volunteering, students were invited to participate in special educational sessions. Learn how transformational volunteering can be by providing care and comfort to vulnerable patients.
