		Pediatric Interest Group (PIG)	
		Women's Health Interest Group (WHIG)	

Student Organizations – Purposes and descriptions

Student Government Association (Elected) Acts as a liaison to the LKSOM SGA based in Philadelphia: both to represent SGA leadership to students at the regional campus and to relay the unique needs and contributions of St. Luke's campus students to the LKSOM student body at large. Works with faculty, administration, and other groups within the St. Luke's Hospital community to contribute to the welfare and education of the student body. Aims to facilitate professional development, social interaction, and service opportunities among and between the individual classes.

Community Service Groups

Community Volunteer Experience Resources (CoVER) Fosters interaction between regional campus students and the surrounding local community. Acts as an umbrella organization for activities related to community outreach and service by providing logistical support, actively seeking out new opportunities for community involvement, and providing a funding conduit for service projects not under the auspices of another student organization.

Health Education and Advocacy Resources at Temple/St. Luke's (HEARTS) Organizes and staffs the HEARTS free clinic, run monthly at the Broughal Middle School Family Center. Facilitates service activities enriching the training of medical students. Serves as a forum for community education on healthy living.

Outreach Health Fair Interest Group (OHFIG) Reaches out to kids and teenagers on important health and wellness issues they face daily. Holds health education events addressing topics including nutrition, mental health, smoking, alcohol & drug abuse, STIs, bullying, physical and sexual abuse, and eating disorders.

Enrichment Groups

Our Wellness Liaisons (OWLs) – Saunders College Available for confidential, non-judgmental conversation with other members of their Doctoring college. Conversations could involve, but are not limited to: dealing with general stress, overcoming academic challenges, confronting professionalism and inclusion issues of peers or faculty. Plan and promote events and activities centered on wellness.

Sports and Fitness Club Provides a means for St. Luke's students to compete in recreational sports leagues in the Lehigh Valley. Promotes participation in other sports and fitness activities throughout the year.

Student Research Council Seeks to provide a forum for discussion of the current research landscape in medicine and for the presentation of ongoing research projects at St. Luke's campus.

Specialty Interest Groups

Anesthesiology Interest Group Promotes student interest in anesthesiology and its subspecialties. Provides first- through fourth-year students opportunities to experience and learn more about the field and career choices.

Diagnostic and Interventional Imaging Group Provides medical students a broad understanding of available imaging modalities and interventions. Guides students through learning about careers in radiology and other interventional specialties (including interventional cardiology, neurology, radiology, and vascular surgery).

Emergency Medicine Interest Group

Provides career information and clinical experience for those medical students interested in emergency medicine. Hosts talks with EM faculty, as well as skills workshops relevant to emergency medicine.

Estes Surgical Society

Advances opportunities for students to explore the surgical fields of medicine. Introduces students to those fields through skills workshops, lunchtime talks, shadowing opportunities, and mentoring relationships with surgeons.

Family Medicine Interest Group

Develops and grows students' understanding of and interest in Family Medicine and Primary Care. Hosts events including skills workshops on common procedures in family medicine, and lectures given by local family physicians. Maintains a close relationship with the Pennsylvania Academy of Family Physicians (PAFP). Welcomes and encourages all students' participation, regardless of specific career plans.

Internal Medicine Interest Group

Promotes an understanding of Internal Medicine among medical students and answers questions about careers in Internal Medicine. Holds lectures and panel discussions about Internal Medicine subspecialties, run clinical skills workshops, and hold journal club meetings discussing advances in Internal Medicine.

Musculoskeletal Specialties Interest Group

Supplements the education of medical students through lectures and activities directed by faculty members specializing in fields of medicine involving the musculoskeletal system.

Pediatric Interest Group

Promotes awareness among all students about the specialty of pediatrics. Creates opportunities for students to interact with infants and children in several settings. Activities offered grow and evolve along with the membership's interests and have included shadowing, volunteering, and educating the community.

Women's Health Interest Group

Educates medical students about unique aspects of women's health and well-being. Organizes lectures and panel discussions, aims also to provide service opportunities for student members.

**Student Associations
LGBTQ and Allies**

Serves to support inclusion of LGBTQ health beyond the curriculum. Provides exposure to issues faced by LGBTQ individuals. Sponsors educational events that value diversity in all forms. Provides open forums for discussion of LGBTQ matters with respect to students, faculty, and patients.

Women in Medicine

Provides medical students with positive female role models and mentors in medicine. Contributes to education of the student body about women in the medical profession. Promotes awareness and understanding of social and professional issues faced by female physicians.
