OBJECTIVES

The **15th Annual Contemporary Issues in Trauma Conference** is a multidisciplinary conference designed to provide trauma education to all levels of health care providers. This conference will address the latest topics in trauma care and is designed to examine current literature and best practices in the field of

trauma. This multidisciplinary conference is intended for physicians, physician assistants, nurse practitioners, nurses, nurse anesthetists, prehospital providers, allied health professionals and professional students.

CONFERENCE OBJECTIVES:

- Determine support structures of staff following a mass casualty
- Discuss the potential challenges of working with rural trauma patients
- Identify key advances in the literature related to mortality and prehospital trauma care
- Identify the updates in the evaluation and management of concussion
- Identify the steps to become a Stop the Bleed Faculty Trainer
- Define the role of whole blood in resuscitating patients in hemorrhagic shock
- Recognize impending respiratory failure and the need for stabilization
- Recognize common pitfalls that can prevent making a difficult diagnosis
