

2025 Geisinger St. Luke's Community Health Needs Assessment Executive Summary

The Community Health Needs Assessment (CHNA) is conducted every three years as part of the Patient Protection and Affordable Care Act. The established priority areas were determined based on CHNA findings and alignment with the social determinants of health, Healthy People 2030 objectives, and the mission and vision of St. Luke's University Health Network.

Key Findings

Overall Network assessment results highlight three priority focus areas for our community health initiatives:

Access to Care

Chronic Disease Prevention

Mental and Behavioral Health

The priorities established serve as a guide for our health initiatives that support our patients, community health workers, and communities. Findings from the 2025 CHNA highlight the differences within our communities that contribute to the prevalence of disease and poor health outcomes that can lead to a lack of optimal health, especially among socially disadvantaged populations.

Healthcare Access and Quality	Neighborhood and Built Environment	Social and Community Context	Economic Stability	Education Access and Quality
Primary Care Provider Ratios: PA: 1,260:1 Schuylkill County: 1,990:1	Cost burdened households in the GSL service area (2022): Renters: 37.0% Homeowners: 18.2%	By 2029, adults 65 years and older will account for 26.5% of the population compared to 17.0% under 18 years old	Service area median household income: 2024: \$64,780 2029 (est.): \$74,638	Students (grades 6-12) that reported feeling sad or depressed most days in the past 12 months: Schuylkill County: 38.1%
