

2025 Warren Community Health Needs Assessment Executive Summary

The Community Health Needs Assessment (CHNA) is conducted every three years as part of the Patient Protection and Affordable Care Act. The established priority areas were determined based on CHNA findings and alignment with the social determinants of health, Healthy People 2030 objectives, and the mission and vision of St. Luke's University Health Network.

Key Findings

Overall Network assessment results highlight three priority focus areas for our community health initiatives:

Access to Care

Chronic Disease Prevention

Mental and Behavioral Health

The priorities established serve as a guide for our health initiatives that support our patients, community health workers, and communities. Findings from the 2025 CHNA highlight the differences within our communities that contribute to the prevalence of disease and poor health outcomes that can lead to a lack of optimal health, especially among socially disadvantaged populations.

Healthcare Access and Quality	Neighborhood and Built Environment	Social and Community Context	Economic Stability	Education Access and Quality
Primary Care Provider Ratios: NJ: 1,280:1 Warren County: 2,970:1 Hunterdon County: 910:1	A household would need to make \$91,040 annually to not be cost-burdened	By 2029, adults 65 years and older will account for 23.3% of the population and compared to 17.6% under 18 years old	Service area median household income: 2024: \$91,573 2029 (est.): \$102,984	89% of individuals 18 years and older in Warren County have a high school degree
Average annual out-of-pocket healthcare expenditures in the service area: \$5,224	57.6% of the service area lives in an urban setting	Top Spanish speaking zip codes in the service area: 18042: 15.7% 18045: 8.2% 07863: 7.7%	9% of households had an income below the poverty level in the last 12 months	41.5% of students in NJ felt sad or hopeless almost everyday for two weeks or more
Uninsured Rates: United States: 10% PA: 7% NJ: 8%	An average of 2.7% of people in the service area did not have access to a car	Food insecurity rates for children: NJ: 13.2% Warren County: 9.6% Hunterdon County: 5.0%	A family of four is at the federal poverty level if they make \$31,200	19.6% of high school students in NJ reported contemplating suicide in the past year
