

St Luke's Virtual Care

Your health care needs don't stop, and neither do we.

Inviting a Guest to your Virtual Visit

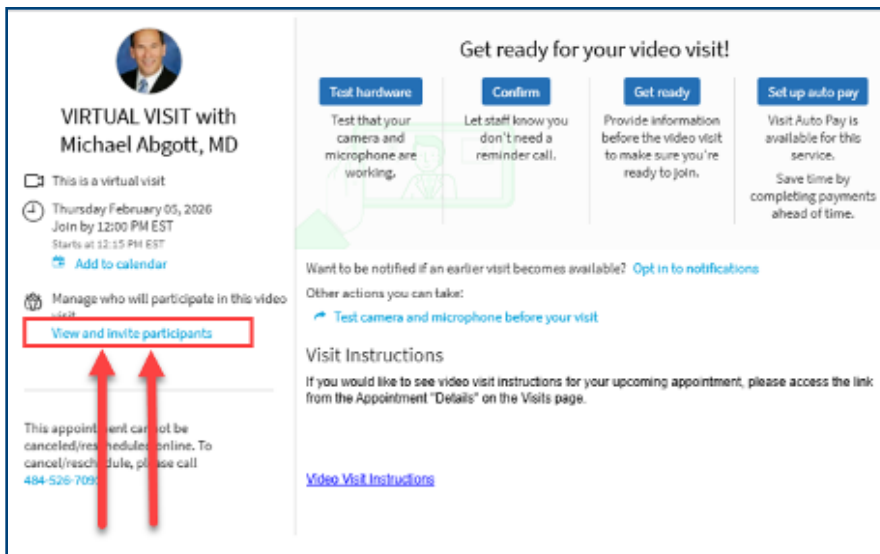

Patients can invite guests to their Virtual Visit through the St. Luke's mobile app or by accessing St. Luke's MyChart on the web.

IMPORTANT: Patients must have an active MyChart account to access this functionality. For help with your MyChart account – call the Patient Service Desk at 866-STLUKES (option 5). However, your provider can also invite guests at the time of the visit.

1. Log in to MyChart and locate your appointment.
2. Click the View Details option.

3. Select the View and invite participants link on the left panel under the provider's name.

DOWNLOAD THE ST. LUKE'S APP!

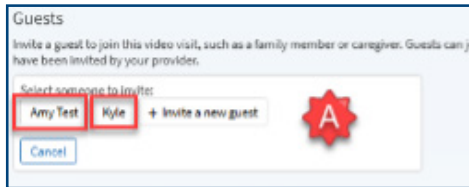

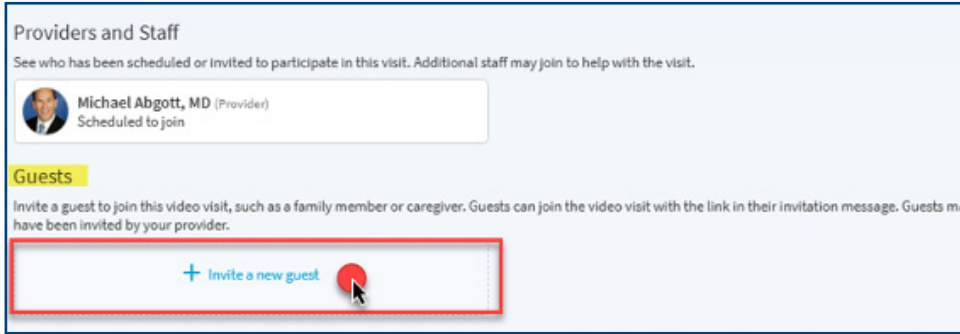

We put managing your health care at your fingertips. **Literally.**

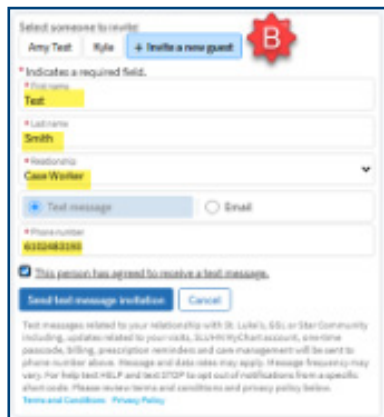

Search "St. Luke's" in the app store or scan the QR code below.

4. Under Guests, select + Invite a new guest to open the menu to add a guest.

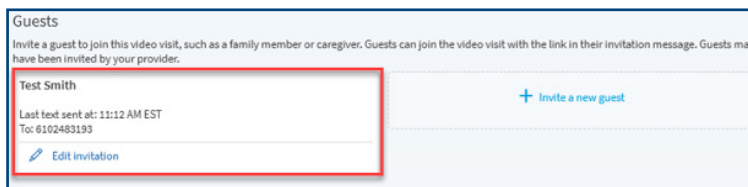

- A. Emergency contacts will automatically be listed for you to add. Simply select one of the names to add them to the video visit.
- B. To choose someone not listed, click + Invite a new guest.

- i. Enter their information in the fields below.
Note: If sending the participant a Text Message, the phone number entered must be able to receive text messages and connect to a video.
- ii. Click the Send text message invitation or Send email invitation button once all information is added.

You will see a confirmation that the link was sent. Select + Invite a new guest to add another participant or exit the screen to join the video call or complete your e-check in.

5. The invite will be sent to your guest. They will join the virtual visit by clicking the link.
